S. H. and H. Chapman:

Gentlemen: I received the package from you this morning and upon opening it, was disappointed at not finding the proof set of 1892 which you billed number 8. In place of it I found proof cent and half cent of 1855 which were not billed at all.

Presuming you had made a mistake in packing I thought best to write immediately in regard to the matter. Are the cent and half cent part of the 1855 proof set you price at $5.00? I hardly expected you to send it. But thought perhaps the sight of it might make me crazy enough to buy it. (You know how it goes) Can't you get me a proof set of 1891? Please look up the 1892 set and send as soon as possible. Do they intend to change the dies soon on account

of the coins being so thick in the cents, or have they already done it. if they do, please let me know, as I would like another extra proof set or two of the first issue if they do,

Trusting you will give this your early attention I remain

Yours Truly

I have just been to Chicago and did not have time to write to you before I went to acknowledge receipt of 1892 proof set.

Think I will keep all the coins you sent on selection and will remit in a few days I may come east this Spring so let the 1855 matter rest till you hear from me.

Was there two issues of 1892 coins and if so what is the difference and have you specimens of both kinds.

Yours Truly
Chas Condill

Gents Enclosed find 1855 cent and half cent and postal order for $1.50 to pay bill of. April 16th. I expected to get 4 dollars for 50¢ each as that was price you quoted in previous letter.

Picked up a good one the other day made at New Orleans mint. Think there are more in circulation here.

Will it pay to speculate on them? and why did they change the dies?

Excuse delay in returning enclosed and oblige

Yours Truly
